

MEDICAL SOCIETY OF DELAWARE GROUP DUES DISCOUNT

MSD introduced a successful group dues discount program for the 2015 membership year. Many groups took advantage of the savings on their yearly renewal. Hospitals, physician practice groups, and affinity groups are eligible for group membership discounts which provide a single source contact for billing and payment. Those in solo or small group practice can also benefit through this opportunity by forming your own network of physicians or organizing an existing group (such as your call group, physicians in your medical building, etc.). Discounts are applied to those membership categories which are not already enjoying a discounted membership rate.

For eligibility, all physicians within the defined group must be members of the Medical Society of Delaware. If your group is interested in consideration for a discount, get started now to ensure those who are not current members have submitted a membership application to be processed prior to any deadlines.

Enrollment for the membership year begins in September and ends in November of the year prior. All group discounts must be established prior to the designated deadline date in order to process and finalize group invoices prior to initial invoice mailing.

If all physicians in your group are already members of MSD, you are encouraged to contact us in the fall prior to the deadline to begin the process for your group discount and invoicing arrangement. Unfortunately, requests for the group dues discount program cannot be accommodated after the deadline. Should there be physicians in your group who are currently non-members, you are urged to contact MSD as soon as possible in order to begin the membership process, as all physicians within the group must be MSD members to be eligible for the group discount program. In addition, the MSD membership application process must be completed by the established deadline for eligibility for the discount.

NOTE: All established groups enrolled in the program, must re-enroll annually to ensure proper billing.

If your group is interested in consideration for a discount or you want to once again enjoy the benefit of the discount received this past dues year, please contact the Medical Society of Delaware to start the enrollment process. You have nothing to lose but dollars off your dues! Contact Mary LaJudice (Mary.LaJudice@medsocdel.org or 302/224-5183) for further details and how to qualify or to start the re-enrollment process.
