

Medical Society of Delaware
LEADING THE WAY TO A HEALTHY DELAWARE

COVID-19 UPDATE

4-11-2020

In an effort to keep Delaware's medical community current on the latest information regarding the coronavirus crisis, the Medical Society of Delaware is sharing the following:

DPH Announces 153 New COVID-19 Cases and One Additional Death

According to the Delaware Division of Public Health (DPH), **153** new Delawareans have been diagnosed with COVID-19, taking the total number of lab-confirmed cases to **1,479**, including **190** who are hospitalized, **55** of whom are critically ill.

Thirty-three individuals have died due to COVID-19 in Delaware. The most recent individual involves a 96-year-old female long-term care resident from Sussex County who had underlying health conditions.

DPH is now reporting deaths of laboratory-confirmed individuals and “probable” deaths where the individual had clinically consistent symptoms and was exposed to a confirmed case, but was never tested.

Governor Urges Delawareans with Health Care, Child Care Experience to Help in COVID-19 Response

Delaware Governor John Carney expanded his community call-to-action, urging all Delaware citizens with health care and child care experience to offer their expertise in Delaware’s fight against COVID-19.

The State of Delaware has launched an new and improved online application portal to recruit Delawareans with health care and early education credentials

to fill critical positions in our health care and emergency child care workforce.
