

Medical Society of Delaware
LEADING THE WAY TO A HEALTHY DELAWARE

COVID-19 UPDATE

4-12-2020

In an effort to keep Delaware's medical community current on the latest information regarding the coronavirus crisis, the Medical Society of Delaware is sharing the following:

DPH Announces 146 New COVID-19 Cases and Two Additional Deaths

According to the Delaware Division of Public Health (DPH), **146** new Delawareans have been diagnosed with COVID-19, taking the total number of lab-confirmed cases to **1,625**, including **201** who are hospitalized, **51** of whom are critically ill.

Thirty-five individuals have died due to COVID-19 in Delaware. The most recent deaths involve a 33-year-old female and an 88-year old female. Both were residents of a long-term care facility in Sussex county and had underlying health conditions.

DPH is now reporting deaths of laboratory-confirmed individuals and “probable” deaths where the individual had clinically consistent symptoms and was exposed to a confirmed case, but was never tested.

THANK YOU!

The Medical Society of Delaware would like to thank all the men and women who are working tirelessly for their patients and the well-being of Delawareans across the First State. Your sacrifices are invaluable!

For more information and resources regarding COVID-19, MSD has created a

coronavirus resource page on our website. [View resource page.](#)
