In an effort to keep Delaware’s medical community current on the latest information regarding the coronavirus crisis, the Medical Society of Delaware is sharing the following:

Sussex County Tops Delaware for Positive Cases

According to the Delaware Division of Public Health (DPH) 458 new Delawareans have been diagnosed with COVID-19, taking the total number of lab-confirmed cases to 4,034, including 317 who are hospitalized, 61 of whom are critically ill.

One hundred twenty individuals have died due to COVID-19 in Delaware with ages ranging from 32 to 103 years old. The most recent deaths announced today ranged in age from 52 to 87. Three were New Castle County residents, Four were Kent County residents, and one was a Sussex County resident. The most recent deaths all involved individuals with underlying health conditions.

Latest statistics on positive cases:

- New Castle County cases: 1,599
- Kent County cases: 625
- Sussex County cases: 1,801
- Unknown County: 9
- Males: 1,822; Females: 2,178; Unknown: 34
- Age range: 0 to 103

Get Your Work Published

The Medical Society of Delaware is actively looking for scientific and educational articles for publication in the Delaware Medical Journal. These articles can be case reports, clinical experiences, observations, and information on matters relevant to the practice of medicine. For more information contact Mary Fenimore at 302-366-1074 or Mary.Fenimore@medsocdel.org.

Read Instructions to Authors.
Read March/April Delaware Medical Journal.

Take MSD's Social Media Flash Survey

In an effort to gauge the most effective ways to share important news, information, and events, the Medical Society of Delaware would like to learn more about the social media usage of Delaware's physicians.

If you are a physician, or PA, please take a few minutes to complete this confidential MSD Flash Survey.

This survey will close at end of business on Wednesday, April 29th.
